This item: Centrex 2000 Non-Electric Waterless High Capacity Central Composting Toilet System in

Product Overview

The Sun-Mar Centrex 2000-NE is designed for medium to heavy cottage or light residential use. The Centrex 2000-NE is a non-electric unit for those with no continuous 110-Volt power supply. All Sun-Mar composting toilets incorporate a patented Bio-drum which ensures fast and odorless decomposition. Saves thousands of gallons of water, while recycling waste into soil. The unit is shipped fully assembled. A one pint flush toilet is required for use with this unit (sold separately). Seasonal capacity: 6 adults or families of 8. Residential use: 3 adults or families of 5. A waterless option is available for this system. This configuration requires the separate purchase of the Sun-Mar Dry toilet and the Sun-Mar A/F Waterless kit.
